Skin Rebalance & Protection

pro&pre
BIOTIC skin care

50 ml Jar

MICROBIOME REVITALIZE CREAM is formulated with **Bifidobacteria extract** (Bifida Ferment Lysate), it helps to rebalance the epidermis and normalize skin discomfort. Topical probiotic application can be beneficial either for preventing or for treating altered microflora-associated skin diseases.

Betaglucans, with prebiotic activity, favor immuno skin protection.

The formula is enriched with natural ingredients such as **Superior Shea butter** that delivers softening and smoothing benefits. Jojoba, **Mimosa and Sunflower waxes**, of 100% plant origin, that improve comfort, softness with a film forming activity without any feeling of heaviness.

Meadowfoam Seed Oil, a natural oil, helpful in balancing sebum and oil production.

DIRECTIONS

Apply the soft cream with circular movements massaging softly the well-cleaned skin.

USEFUL FOR:

- 1 Revitalizes the skin's own active defense system
- 2 Offers immediate moisturizing, soothing and restorative action by its ultra smooth texture
- 3 Avoid thinning of the lipid skin barrier
- 4 Green components with the maximum performances and pleasant skin feel
